Allegany Arts Council accepting grant applications for 2021-2022

CUMBERLAND—The Allegany Arts Council is now accepting applications for its 2021-2022 grants program. The program, made possible by County Arts Development funding of the Maryland State Arts Council, supports non-profit organizations and individual artists in the creation of activities, programs, and placemaking efforts which champion the arts in our community. The program offers two types of grants—General Operating Grants and Creative Placemaking Grants. Grant awards are for activities, programs, projects, and operations which occur between July 1, 2021-June 30, 2022.

General Operating Grants, which may not exceed \$3,500, may be used to support the day-to-day work of non-profit organizations in the arts sector, which includes programming costs, general operations, and capital expenses.

Creative Placemaking Grants, which may not exceed \$5,000, support the work of one or more partners, including public, private, non-profit and community sectors, along with individual artists, who seek to undertake projects which shape the physical and social character of the community. Successful creative placemaking projects animate public and private spaces, rejuvenate structures and streetscapes, improve local business viability and public safety, and bring people together.

Details on grant eligibility and guidelines, along with grant application forms, can be found by visiting our website at <https://www.alleganyartscouncil.org/grants/>. The deadline to enter is June 30, 2021.
