

Thank you for your interest in the community exhibition, “Creative Community Creating Unity,” exploring issues of diversity, justice, access, inclusion and equity. The goal of the exhibition is to use creative expression as a healing tool and welcomes artists of all ages and skill levels. The exhibition is not competitive and any artist wishing to participate will be included.

In addition to the gallery exhibition taking place July 31-August 28, 2021, we are planning a companion program, gallery guide and other events related to the project. We encourage artists of all art forms to submit entries.

**This exhibition explores subjects which may illuminate, challenge, unsettle, or cause viewers to have strong emotional reactions. To exhibit a work of art is not to endorse the work or the vision, ideas, and opinions of the artist. It is to uphold the right of all to experience diverse visions and views. If and when controversies arise from the exhibition of a work of art, we welcome public discussion and debate with the belief that such discussion is integral to the experience of the art. Consistent with our commitment to freedom of speech, we will not censor or refuse works unless they demonstrate a clear violation of the exhibition guidelines, goals and objectives.*
